

Air flow tester QLC-I

Features

- 1、 Test air flow in or over class 100 cleanroom
- 2、 4-23CFM output adjustable, spray for 45 min
- 3、 3-4 feet spray distance(Due to different temperature and air speed)
- 4、 Water storage levelline
- 5、 Switch control
- 6、 Visual air flow and air speed

Application

- 1、 Cleanroom air flow test (Especially for pharmaceutical factory)
- 2、 Air flow balance test
- 3、 Wet cleaning exhaust system optimization
- 4、 Chemical processing equipment exhaust system test
- 5、 Personal safety discharge system verification
- 6、 The room inside and outside pressure balance
- 7、 Duct leakage test

Technical parameters	
Body materail	SUS304
Output	3-23CFM adjustable
Power	150W
Power supply	220V 50Hz
Liquid volume	3000ml
Spray medium	DI Water
Consumption	25ml/min
Weight	4.5KG(_Without water)
Size	180mm*215mm*280mm

Standard Configuration

QLC-I、 Flexible pipe Power adapter, power line、 Operation manual

Accessories

Case, dust cap

Dust cap

Flexible pipe
