High-Speed (3.125Gbps) Stacking Connectors

FX8C Series

■Mechanical features

- 0.6mm Pitch
 - Stacking Height : 5~16mm
- Number of Contacts: 60, 80, 100, 120, 140,

160, 200, 240, 280

SMT Coplanarity

The coplanarity of the SMT solder area lead is maintained at the high accuracy of less than 0.1mm.

Mating Guide

The very small and guide rib is provided, and secures ± 0.6 mm self-alignment, considering the mating operativity into accounts. (fig.1)

- Effective Mating Length : 2mm (fig.1)
- Mis-insertion Prevention

The boss prevents mis-insertion in the board to cause due to the boss position and boss diameter.

■ Two-piece Connection Product

In order to enhance the mating reliability for fine pitch connector using two-pieces, the two-pieces of connectors are combined by our unique method, and can secure the mount position accuracy. In such a new concept, the two-piece connected product is prepared at every number of contacts (The standard mating pitch for the two-piece interconnected product in two rows is 11mm.)

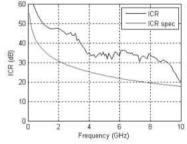

■Signal integrity features

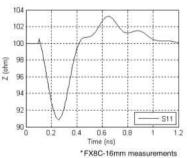

● Insertion-Loss-to-Crosstalk-Ratio (ICR)

The insertion-loss-to-crosstalk ratio (ICR) with five-aggressor differential FEXT meets the IEEE 802.3ap specification for 3.125⁺ Gbps with plenty of margins.

Differential Impedance

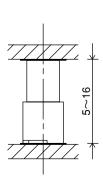

The differential impedance is within 100 ± 10 ohms at 100 ps rise time (20% to 80%).

■Stacking height variations (5mm~16mm)

FX8C Series

■Product Specifications

| Datin v | Current rating 0.4A | Operating Temperature Range −55°C to +85°C Note 1. | Storage Temperature Range −10°C to +60°C Note 2. |
|---------|------------------------|--|--|
| Rating | Voltage rating 100V AC | Operating Humidity Range 40% to 80% | Storage Humidity Range 40% to 70% |

| Item | Specification | Condition | | | |
|----------------------------------|---|---|--|--|--|
| 1. Insulation Resistance | 100M ohms min. | 250V DC | | | |
| 2. Withstanding voltage | No flashover or insulation breakdown. | 300V AC/1 minute | | | |
| 3. Contact Resistance | 80m ohms max. | 100mA | | | |
| 4. Vibration | No electrical discontinuity of 1 μ s or more | Frequency: 10 to 55 Hz, single amplitude of 0.75 mm, 2 hours in each of the 3 directions. | | | |
| 5. Humidity (Steady state) | Contact resistance: 100m ohms max.Insulation resistance: 100M ohms min. | 96 hours at temperature of $40 \pm 2^{\circ}\text{C}$ and humidity of 90% to 95% | | | |
| 6. Temperature Cycle | Contact resistance: 100m ohms max.Insulation resistance: 100M ohms min. | (-55°C: 30 minutes, 15 to 35°C: 2 to 3 minutes | | | |
| | | 85°C: 30 minutes, 15 to 35°C: 2 to 3minutes) 5 cycles | | | |
| 7. Durability (Mating/un-mating) | Contact resistance: 100m ohms max. | 50 cycles | | | |
| 8. Resistance to Soldering heat | No deformation of components affecting performance. | Reflow: At the recommended temperature profile | | | |
| | | Manual soldering: 360℃ for 5 seconds | | | |

Note 1: Includes temperature rise caused by current flow.

Note 2: The term "storage" refers to products stored for long period of time prior to mounting and use. Operating Temperature Range and Humidity range covers non conducting condition of installed connectors in storage, shipment or during transportation.

Note 3: Slight variations in color of the plastic compounds do not affect form, fit or function of the connector.

Note 4: FX8C-*P-SV(*),FX8C-*S-SV(*) is gold plated.

Note 5: Information contained in this catalog represents general requirements for this Series. Contact us for the drawings and specifications for a specific part number shown.

■Material

| Part | Material | Fin | ish | Remarks |
|--------------------|---------------------------|---------------------------|-----------------------------------|---------|
| Insulator | Insulator PPS Light brown | | | UL94V-0 |
| Header Contact | Phosphor bronze | Contact area Lead area | Gold plated Tin plated(Note 4) | |
| Receptacle Contact | Phosphor bronze | Contact area Lead area | Gold plated Tin plated(Note 4) | |

^{*}The standard packaging of the two-piece connection product is the tray packaging.

■Signal integrity

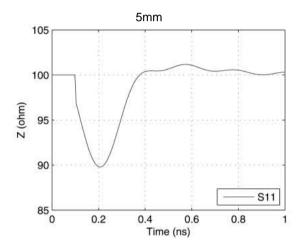

Pin assignment

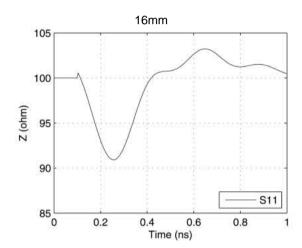

To match 100 ohm differential impedance and to reduce crosstalk, a staggered GSGSG pin assignment is recommended for FX8C of 5mm to 9mm height, and a staggered GSSG pin assignment is recommended for 10mm to 16mm height. (G=ground and S=signal)

●Impedance

The differential impedance is 100 ± 10 ohm for FX8C of 5mm and 16mm height at 100 ps rise time (20% to 80%).

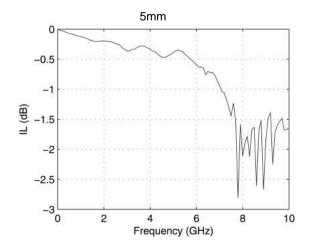

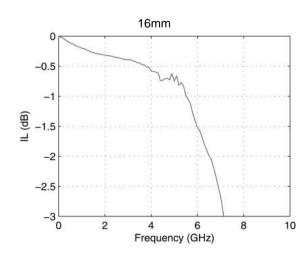

Propagation delay

The propagation delay is 69 and 118 ps for FX8C of 5mm and 16mm height, respectively.

●Insertion loss

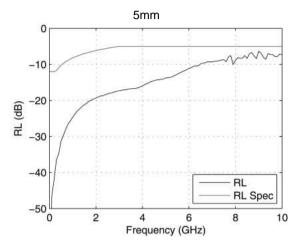

The differential insertion loss crosses 1 dB at 7 and 5 GHz for FX8C of 5mm and 16mm height, respectively.

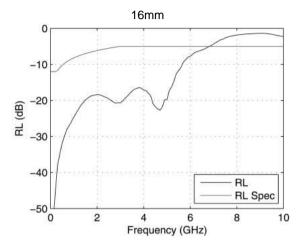

●Return loss

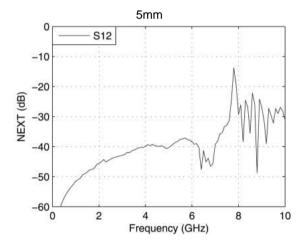

The differential return loss meets the IEEE 802.3ap specification to 10 and 7 GHz for FX8C of 5mm and 16mm height, respectively.

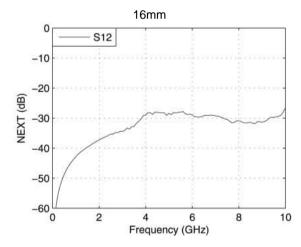

●Near-end crosstalk (NEXT)

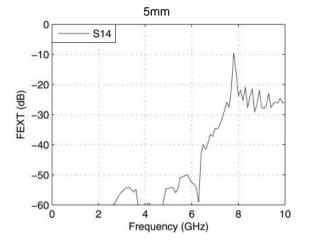

The staggered GSGSG and GSSG pin assignments resulted in low differential NEXT.

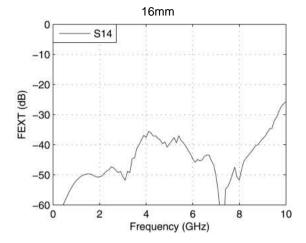

●Far-end crosstalk (FEXT)

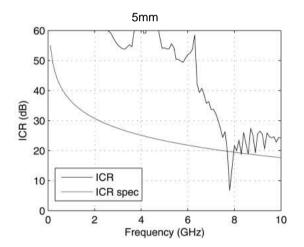

The staggered GSGSG and GSSG pin assignments resulted in low differential FEXT.

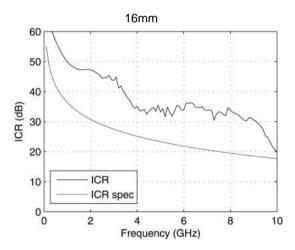

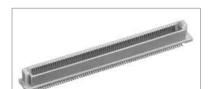

●Insertion-loss-to-crosstalk ratio (ICR)

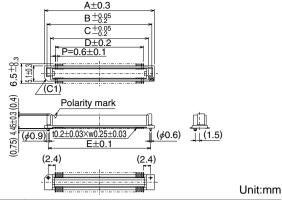

The insertion-loss-to-crosstalk ratio (ICR) with multi-aggressor* differential FEXT meets the extrapolated IEEE 802.3ap specification to 7+ GHz with plenty of margins.

Note 2: Tray packaging product is not for board placement with automatic equipment.

■PCB mounting pattern

■Detailed Figure After Joint Removal (Single Product in two-piece Connection Product)

■Connector Precautions

1. Tolerance Clearance on Mating Side

The effective contact length of the product is set to 2.0mm. Please use the product so as to set to less than 1.2mm the clearance between the header and the receptacle in the mating process.

2. Fixation Between Mounting Boards

If this product is fixed only by mating force, Please consider the fixing method so as not to apply loads such as vibration, shock and so on.

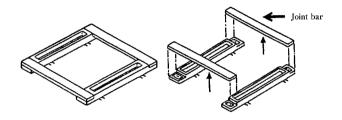

3. Stacking General Tolerance in Mating

Stack Amm
$$\longrightarrow$$
 A $^{+0.3}_{-0.2}$ mm

Note: Please Note that the above tolerance of the stacking height doesn't include the solder paste thickness.

4. Handling Two-piece Connection Product

Both joint bar edges of the two-piece connection product are fixed by joints, while the mating process can't be performed in that state. Before the mating process, please remove the joint bars as if pull it up. (Don't remove the joint bars before mounting on the board.)

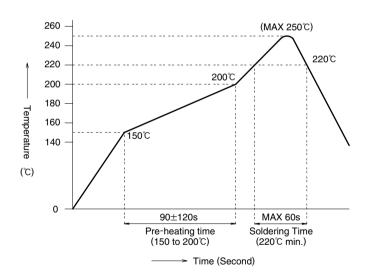

Before removing joint bar

After removing joint bar

5. Mounting Temperature Profile (Reference)

HRS test conditions

Test boardGlass epoxy 161mm×100mm×1.6mm thick

Solder method :Reflow Solder composition :Paste,

96.5%Sn/3%Ag/0.5%Cu

Metal mask : 0.15mm thick Reflow cycles : 2 cycles

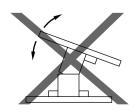

The temperature profile is based on the above conditions.

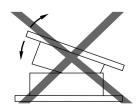

In individual applications the actual temperature may vary, depending on solder paste type,

volume/thickness and board size/thickness. Consult your solder paste and equipment manufacturer for specific recommendations.

6. Cautions

This product is made as the thin formed product in order to be miniaturized.

■Packaging Type

●Reel State Size Pattern (FREE)

Note 1: E dimension for FX8C-140S-SV(92) is ϕ 370, core dia. is ϕ 100.

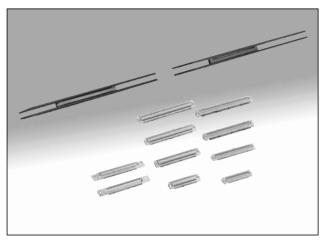

Note 2: E dimension for FX8C-120P-SV2(92), FX8C-120S-SV5(92), FX8C-140S-SV5(92) is ϕ 380.

0.6mm Pitch Stacking Height 3mm to 16mm Connector

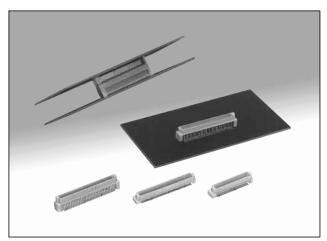

FX8, FX8C Series

FX8 Series

Note that FX8 series and FX8C series are not mated with each other.

FX8C Series

■Features

1. Stacking Height 3mm to 16mm available The board to board stacking height can correspond to 3mm~16mm.

2. SMT Coplanarity

The coplanarity of the SMT solder area lead is maintained at the high accuracy of less than 0.1mm.

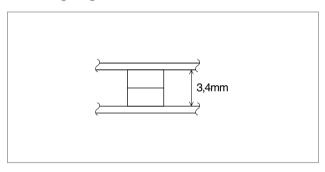

3. Mating Guide

The very small and guide rib is provided, and secures ± 0.6 mm self-alignment, considering the mating operativity into accounts.

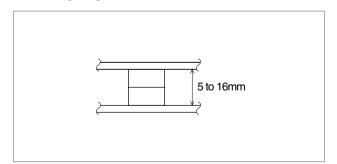

4. Mis-insertion Prevention

The boss prevents mis-insertion in the board to cause due to the boss position and boss diameter.

Stacking Height 3,4mm-FX8 Series

Stacking Height 5 to 16mm-FX8C Series

■Applications

Note pc, business equipments, which require miniaturization or light-weight

FX8C Series

|---|
|---|

| Item | Specification | Condition |
|----------------------------------|---|---|
| 1. Insulation Resistance | 100M ohms min. | 250V DC |
| 2. Withstanding voltage | No flashover or insulation breakdown. | 300V AC/1 minute |
| 3. Contact Resistance | 80m ohms max. | 100mA |
| 4. Vibration | No electrical discontinuity of 1 μ s or more | Frequency: 10 to 55 Hz, single amplitude of 0.75 mm, 2 hours in each of the 3 directions. |
| 5. Humidity (Steady state) | Contact resistance: 100m ohms max.Insulation resistance: 100M ohms min. | 96 hours at temperature of 40°C and humidity of 90% to 95% |
| 6. Temperature Cycle | Contact resistance: 100m ohms max.Insulation resistance: 100M ohms min. | (-55°C: 30 minutes, 15 to 35°C: 2 to 3 minutes |
| | | 85℃: 30 minutes, 15 to 35℃: 2 to 3minutes) 5 cycles |
| 7. Durability (Mating/un-mating) | Contact resistance: 100m ohms max. | 50 cycles |
| 8. Resistance to Soldering heat | No deformation of components affecting performance. | Reflow: At the recommended temperature profile |
| | | Manual soldering: 360°C for 5 seconds |

Note 1: Includes temperature rise caused by current flow.

Note 2: The term "storage" refers to products stored for long period of time prior to mounting and use. Operating Temperature Range and Humidity range covers non conducting condition of installed connectors in storage, shipment or during transportation.

Note 3: Slight variations in color of the plastic compounds do not affect form, fit or function of the connector.

Note 4: FX8C-*P-SV(*),FX8C-*S-SV(*) is gold plated.

Note 5: Information contained in this catalog represents general requirements for this Series. Contact us for the drawings and specifications for a specific part number shown.

Note 1: The two-piece connection product is packaged by tray.

Note 2: Tray packaging product is not for board placement with automatic equipment.

▶ PCB mounting pattern

● Detailed Figure After Joint Removal(Single Product in two-piece Connection Product)

◆ Connector Precautions

1. Tolerance Clearance on Mating Side

The effective contact length of the product is set to 2.0mm. Please use the product so as to set to less than 12mm the clearance between the header and the receptacle in the mating process.

2. Fixation Between Mounting Boards

If this product is fixed only by mating force, Please consider the fixing method so as not to apply loads such as vibration, shock and so on.

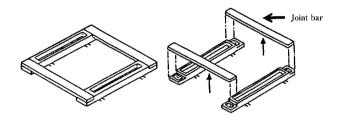

3. Stacking General Tolerance in Mating

Stack Amm
$$\longrightarrow$$
 A $^{+0.3}_{-0.2}$ mm

Note: Please Note that the above tolerance of the stacking height doesn't include the solder paste thickness.

4. Handling Two-piece Connection Product

Both joint bar edges of the two-piece connection product are fixed by joints, while the mating process can't be performed in that state. Before the mating process, please remove the joint bars as if pull it up. (Don't remove the joint bars before mounting on the board.)

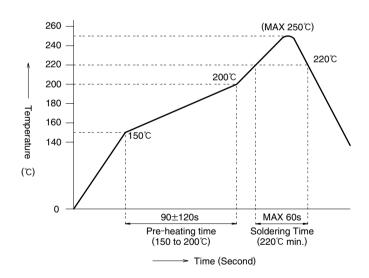

Before removing joint bar

After removing joint bar

5. Mounting Temperature Profile (Reference)

HRS test conditions

Test boardGlass epoxy 161mm×100mm×1.6mm thick

Solder method :Reflow Solder composition :Paste,

96.5%Sn/3%Ag/0.5%Cu

Metal mask : 0.15mm thick Reflow cycles : 2 cycles

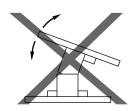

The temperature profile is based on the above conditions.

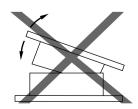

In individual applications the actual temperature may vary, depending on solder paste type,

volume/thickness and board size/thickness. Consult your solder paste and equipment manufacturer for specific recommendations.

6. Cautions

This product is made as the thin formed product in order to be miniaturized.

● Packaging Type

| Packaging Type | Number of Contacts | 60 contacts | 80 contacts | 100 contacts | 120 contacts | 140 contacts | | |
|-------------------------|-------------------------|---|--------------------|---------------------|--------------------|------------------|--|--|
| | Packaged Product Pieces | 21 pieces | 17 pieces | 14 pieces | 12-pieces | 10pieces | | |
| Tube packaging | Sales Unit | Deliver the multip | lied pieces. (Exan | nple) In case of 20 | contacts,21 piece | es, 4two-pieces, | | |
| | Total Tube Length | 550mm±2mm | | | | | | |
